Subj: Application for Phase I Bond Release of the Remaining Reclaimed Areas of the Des Bee Dove Mine Site, PacifiCorp, C/015/0017

PacifiCorp, by and through its wholly-owned subsidiary, Energy West Mining Company ("Energy West"), hereby submits application for Phase I Bond Release of its Des Bee Dove Mine site which includes the Sediment Pond area and the Remote Portal Breakouts (Beehive Portal Breakout and Deseret Portal Breakout). As required by Directive Number: Tech-006, Requirements for Phased Bond Release, the following information is included with this application; 1) Notarized Signature - A C1 form is included with the signature of the responsible official of PacifiCorp certifying that the information contained in the application is true and correct, 2) Notification Letters - A copy of the notification letters that were sent to all parties that have a valid interest in the release of bond. 3) Newspaper Advertisement - A copy of the newspaper advertisement as published in the Emery County Progress beginning August 19, 2008.

Also provided with this application is "As Built" drawings of all reclamation work completed at the Des Bee Dove Mine with all requirements of Section 2, B, 1-6. To date, final reclamation has been completed on all disturbed areas of the Des Bee Dove Mine. Phase I bond release has been approved for the Phase 1 Area, Phase 2 Area, and Pumphouse Area.

There are no structures remaining to manage or maintain for the postmining land use by the land owner. Postmining land uses were amended in February 2007 from the original grazing and wildlife habitat uses. Uses now include grazing, wildlife habitat, recreation, and industrial/commercial uses which allowed for recreational and hiking within, and oil and gas development adjacent to the Des Bee Dove Mine area.

All requirements of the General Technical Requirements section are included in this application for Phase I Bond Release. Four (4) copies each of the contents in the enclosed attachments have been supplied. If there are any questions or concerns with the information provided herein, please feel free to contact Dennis Oakley at (435) 687-4825.

Sincerely,

Ken Fleck

Geology and Environmental Affairs Manager
